

Objective

What is our objective for this workshop? First and foremost it is a retreat. This should be an opportunity to deepen our anthroposophical life by carrying these impulses through several days and nights, meditating on the topic, and learning how to incorporate it in our daily life.

Rudolf Steiner considered personal health to be one of the prerequisites for spiritual development - and ultimately for the very understanding of Anthroposophy. All ancient Mystery Temples had a healing center associated with them. Rudolf Steiner presents Anthroposophy as a quintessential Therapeutic Impulse for Mankind.

And yet most, even very serious students of Anthroposophy, know very little about Anthroposophical Medicine (AM) and certainly even less about how to make it fruitful in their everyday life.

This weekend we will try to take first steps in "curing this ill". AM can be, though is it not always, a self-help path, leading to a richer and more productive life.

This workshop will help with basic questions: What is AM? Why should I take "my daily remedies"? Why must I do daily eurythmy (therapeutic or artistic) exercises? And much more! Every session will include eurythmy and time for questions and answers.

Registration

Please pre-register. Fee: \$50 includes Friday, Saturday & Sunday lectures and Saturday lunch/drinks/snacks. Make checks payable to Barbara Bittles and mail to 4804 Sewanee Road, Nashville TN 37220.
